### It's Dead Easy

Apart from the sensation of relaxed Segway cruising you experience the beauties and sights of the unique Dessau-Woerlitz Garden Realm. At short stops you may get first impressions and further suggestions for future Segway, bike or hiking tours.

### Enjoy an entirely new feeling of mobility.

Segway is the trend towards environment-conscious, close-to-nature movement. Whether sightseeing, "hiking" or simply cruising the area - Segway will carry you away!

For advanced people we offer 2-hour speed tours across Tiergarten forrest, along Mulde River to downtown Dessau or to Oranienbaum Park and Palace. Enjoy our region's highly developed 270 km network of cycle, forrest and embankment tracks from a relaxed perspective.

Helmets are compulsory! The lending fee for a helmet is included in the tour price. Further requirements are a moped driving license or higher and the signing of an exclusion of liability.
